Speed breeds success for HTBC's AAT students

Here at Haydon Training Business College our students have done us proud again with their excellent results. It's becoming a habit! The June results, reproduced below, are well above national averages and both foundation and intermediate stages have been completed in 9 months!

Stage	HTBC	National Average
Foundation	100%	89.7%
Intermediate (ECR)	81.3%	79.9%
Intermediate (FRA)	84.6%	65.7%

Our technicians, though not so fast, have been just as successful. We have produced 12 MAATs this year so far.

Pat Cumberpatch, our course manager, believes that speed is the key to success. The students stay focussed, do not switch off and do not have time to forget what they learned earlier in the course. Completing foundation in 3 months and intermediate in 6 months also paves the way for a 2 year fast track for the whole AAT programme.

Congratulations to our brilliant students.
